

# GREEN FILMING WORKSHOP will be ONLINE!

A five-day intensive workshop on film sustainability management organized by Slovak Audiovisual Fund / Slovak Film Commission in cooperation with Creative Europe Desk Slovak Republic and Czech Republic and APA (Audiovisual Producers' Association) has been moved online.

The workshop is primarily dedicated to producers, production managers, line producers, production assistants, directors and other leading film crew members interested in learning more about climate-friendly film production and willing to apply it in practice.

Workshop participants will receive a certificate of participation of the workshop.

The condition for obtaining the certificate is the completion of the entire workshop!

The workshop and training will be led by an expert and eco-consultant with a long-term experience, Philip Gassmann from Munich.

## Philip Gassmann

Filmmaker and Green Consultant. He studied film in Paris and worked for various theatre, film and tv projects. Since 2014 he organises workshops on eco-friendly filmproducing for film funds, film schools, film producers and politicians.
